Ms. Schechter,

An investigation revealed that the two trees at 901 N. Highland Ave. were not illegally removed. A traffic accident on 6/16/2016 fell the two trees and our emergency truck responded to remove the debris. We will remove the stumps as resources allow and in the future a non-profit tree organization will be doing the replanting. The person involved in the accident will be required to reimburse the city for the loss of the trees and work involved.

Sincerely,
Bill Candlish
